

Washington is Earthquake Country!

EARTHQUAKES

When driving ...

- Pull over & stop.
- Avoid stopping near:
 - bridges
 - tall trees
 - light poles
 - buildings
- Stay inside your vehicle until the shaking stops.
- Be careful of downed power lines. Remain in your car until you are sure it is safe to leave.

TSUNAMIS

When at the beach, and any of these occur ...

- the ground shakes in an earthquake
- you hear the warning siren
- the ocean recedes from the shoreline

... immediately head for high ground.

Preparing for Disasters

Washington is Volcano Country!

Volcanic eruptions are survivable with proper precautions. When driving ...

- Listen to the radio for instructions.
- Do not approach the eruption area.
- Follow Evacuation Route signs.
- Close all windows and air vents if volcanic ash is falling. Be aware of poor visibility.
